A. B. Landis of Waynesboro, Fa., Finds His Health Greatly Improved After Long Fast Here.

Without any ostentation about a feat that fills most people with wonder, A. B. Landis, an inventor, and for the last 30 years a well known resident of Waynesboro, Pa., came here a little more than a month ago and set himself to a 30 day fast which was completed last Saturday evening. Mr. Landis has had a room at the home of Frank L. Lathrop, No. 493 West Main street, so as to be near his friend, Charles C. Haskell, at No. 458 West Main street, of whose theories and discoveries along the lines of diet and health he has been a student and follower for a number of years.

—Fishing Still Good.

The season of 1910 has proven to be one of the best season on the Restigouche river in the twelve years since Archibald Mitchell and his partners have owned the water. The fish are running about the average size, and every day is a day of luck. At last reports Mr. Mitchell had taken eighty, and was in high spirits and the best of health.

He has as his guests on the river at present Charles Franklin and Edwin Robinson, from the west, gentlemen well known in Norwich.

Mr. Mitchell will return home at the close of the present month with a good a record as he ever made on the river, if not the very best.

It was at Mr. Haskell's table on last Saturday evening that Mr. Landis broke his 30 day fast with a light meal of strained lima been soup and toasted Triscuit. "Nothing ever tasted so good," appreciatively remarked Mr. Landis as the first mouthful of soup passed his lips, which was the first food he had taken since he began his food he had taken only lightly, perhaps not over four pounds in weight.

Mr. Landis about the same as the first mouthful of soup passed his lips, which was the first food he had taken since he began his food he had taken since he began hi

hungry spells or unusual sensations while he was not eating. The only sensation he spoke of was something of a "gone" feeling about the third day, but this was soon past and the fact that he was not eating food was forgotten. In the thirty days the only thing that passed his lips was pure water and a little orange or lemon juice.

The boat was towed down to the railroad bridge, passing the Yale eight on the way, and made the start at a stroke between 38 and 40. This was maintained for the first quarter of a mile and gradually lowered to 32, which was kept until the last half mile, when it was gradually raised, the finish being made at 40. Coach Wray would not give out the time, though it is understood to have been satisfactory.

factory.

A slight controversy has arisen over the eligibility of Howe, No. 2 of the Yale freshmen crew, due to the fact that two years ago he entered college, remaining until the Christmas vacation, when he was obliged to leave. An informal protest has been made to the Yale rowing authorities and the matter is now being considered. It is understood also that he was a member of the university swimming team, which is contrary to the Harvard custom, where no freshmen are allowed on 'varsity teams.

There will be no race this year be-tween the two second 'varsity fours. Harvard challenged the Yale four, but Harvard challenged the Yale four, but the latter would not agree to a race, giving as a reason the unsettled condition of the men in the boat. Captain Waid of the 'varsity, Medical Supervisor Dr. W. C. Ladd, Captain Goodale of the freshmen eight and L. K. Lunt, physical supervisor of the freshmen eight, paid an informal call at the Yale quarters Friday.

The freshmen eight rowed down to the navy yard Friday night at a slow stroke under the direction of Coach Wray and the two varsity fours paddled down stream for a mile and a half, followed by the freshmen four.

Friday night's row by the 'varsity eight over the course will probably be the last real hard work before the race, the remainder of the time being spent in practicing starts and light work.

Kept from morning practice by the heat, the Yale crews were all out on the river Friday night, the water being smooth and the weather ideal. The 'warsity eight was towed down to the railroad bridge and paddled back over the course, passing the Harvard 'varsity eight, which was being towed down to the start. A spurt was made over the last half mile of the course, but no time was taken. The freshmen eight and the three 'varsity fours paddled down to the navy yard and return.

The managers or advisers at quarters would make no statement Friday night as to what action they intended to take on the informal protest made against Howe of the freshmen eight by the Harvard management.

It used to be the theory of street railway managers in some cities, and perhaps is yet, that straphongers in the cars pay the dividends. In every one I was deply interested, and as the year went on and the new year came I was watching quietly to see who would be the candidate on the republican side to fayor, and to recommend, these measures, as far as a governor had the power and right."

Mr. Goodwin said that he believed in effective public utilities control and in an employers' liability measure with the removal of the \$5,000 damage limit for deaths. He declared that men were becoming restless because these subjects were not brought to a satisfactory conclusion, and expressed the hope that by putting forth his candidacy he could aid in bringing this about. In conclusion Mr. Goodwin said: "The success or non-success of my candidacy means mighty little to me, but the success of these principles is all the world to me,"—Norwalk

Bonds were fixed at \$200 and he was unable to get bail and was brought to the jail here by State Policeman J. J. Gagnon, through whose good work he was caught.

Two of the chickens of F. H. Gilbert of Jewett City were stolen Thursday evening at 9.30 and at one o'clock Friday morning the state policeman had the accused under arrest. He was taken at his boarding place in Ashland street, Jewett City. The two chickens were found at the home of Frank Munker and he was arrested for keeping stolen property, but the case was nolled upon the payment of costs amounting to \$13.03. It is claimed there has been much tubule because of similar thefts and the residents are thankful to the state policeman that there is hope of its being stopped.
